Where are people living who say Lennie Bernstein

     scattered, should have focused? (What t-
     RUE ARTists do, I'm led to understand.)
     I submit art's neither a dog with a bone
     nor fuckin graduate school. So

he could be schmaltzy, n' went from outsized Jew to queer,
promiscuous, schmoozing the post-war Krauts into performing
Mahler's "scheissmusik" (read kikemusik). West Side Story,
that was so bad? Teaching kids the classics...this
     is a crime? Chichester Psalms? Drek?

The showy, talented sonabitch swarmed a passionate lifetime.
So he could be an asshole. Critics, as ever, should look
          to their own (if they can find 'em).
